

# ENGLEWOOD FIELD CLUB SKATING PROGRAMS

October - March  
Ages 3+

In addition to EFC Hockey and General Skating, EFC offers an array of junior figure skating (JFS) programs to instruct, challenge, and entertain skaters of all ages and skill levels. Uniquely taught on an outdoor ice rink, EFC skaters learn skating technique from our staff of professional figure skating coaches in a positive and fun environment. Annual highlights of our program include the Winter Invitational, the Solo Exhibition and the season finale Great Skate Show which all give our skaters the opportunity to show off their skills. For our figure skating parents, our conveniently located East Wing offers indoor, heated viewing areas complete with access to our snack bar and restrooms.

Our 2020-2021 offerings consist of the following programs:

- **Parent & Me Class:** This class is designed to help children 3-5 years old and their parents become comfortable in their skates. It will encourage the skater to learn balance and proper technique so that they can skate independently on the ice.
- **Private Lessons:** This program offers private lessons during exclusively reserved skating sessions and makes USFS and ISI tests available to all skaters. Working with our talented instructors, young skaters will continue to build their confidence on the ice.
- **Team Skating:** Our Fancy Skating Teams give skaters the opportunity to showcase their movements and patterns in a performance routine set to music. With teams for all skill levels and ages, learn how to skate as one flowing unit.
- **Clinics:** Our clinics teach a variety of skating skills making our skaters even more graceful on the ice. This season we are excited to offer two unique clinics: Figures & Fancy Free Moves and Interpretive Dance on Ice.

**Register online starting September 1st at [englewoodfieldclub.org](http://englewoodfieldclub.org).**
